

Fun with Stamps – 5

Letters In: Let Us Out!

Some words hide inside other words, for example 'scratch' hides 'rat'.

We can often make other words using the letters from one word: from 'team' we can make: meat, eat, ate, me, tame...

The word PHILATELIC means 'about stamps and postage'.

See how many words you can make from the letters in PHILATELIC.

It took us ten minutes to make 35 words. We're sure there are more!

How many words can you make in ten minutes?

If you want to play this game another day, here are some other stamp words with words hiding inside them:

PERFORATED

COMMEMORATIVE

WATERMARK

We gave ourselves ten minutes for each of these words, and came up with 25 words for each.

See how you go!

Have a look at the glossary for other stamp words you could use.
