

Fun with Stamps – 9

More Stamps On Us

You can make stamp jewellery! Use stamps that you don't want to keep - or use pictures of stamps from old Stamp Explorer magazines.

You will need:

- a good collection of stamps or stamp pictures (at least 20 for a necklace)
- a knitting needle
- PVA glue
- strong thread
- a needle with a rounded end

I'm going to make a necklace for my mum!

I think I would like to keep mine...

How to make stamp jewellery:

1. Glue the back of a stamp and roll it around a knitting needle to form a cylinder.
2. Hold it there for a few seconds, then slide it off and let it dry.
3. Repeat this about 20 times until you have enough 'beads' to make a necklace or a bracelet.
4. When the beads are dry, thread them on some wool.
